## SUMMARY

Computer Science graduate with hands-on experience in web development, technical SEO, and IT systems support. Skilled in JavaScript, HTML, CSS, analytics implementation, and performance optimization, with additional experience supporting clinical IT infrastructure. Seeking to leverage strong problem-solving abilities and real-world technical experience to grow into a software development role.

## EXPERIENCE

### Web & Technology Specialist Intern

Feb 2026 – Present

*SEC Marketing Group*

📍 Remote

- Developed and maintained client websites with custom front-end components using JavaScript, HTML, and CSS
- Implemented technical SEO optimizations (metadata structuring, schema markup, site audits, crawl error fixes)
- Improved site performance through page speed optimization and responsive design adjustments
- Configured analytics and tracking systems (Google Analytics, Tag Manager, conversion tracking)
- Assisted in internal automation and software development initiatives to streamline workflows
- Identified and resolved technical SEO issues impacting search rankings

### Clinic IT Intern

May 2025 – Jul 2026

*Interprofessional Clinic of Appalachian Institute for Health and Wellness*

📍 Boone, NC

- Resolved network connectivity issues in a timely manner
- Configured a machine which would help aid healthcare providers in diagnosing autism early in young children
- Participated in new technology and emerging developmental programs utilized by the clinic
- Installed software updates and patches to machines in accordance to HIPAA legislation
- Utilized electronic health record platforms to help aid healthcare providers delivering service to patients
- Resolved hardware issues when helping to setup a PA system

## EDUCATION

### Appalachian State University Boone

Jan 2023 – Dec 2025

*B.S. in Computer Science, cum laude*

🎓 CGPA: 3.63

### Central Piedmont Community College

Aug 2018 – Dec 2022

*Associates in Arts*
